Company Profile

Since 1977, the Peta brand has been a symbol of high quality decorating tools.

From initial operations in a small brush factory in Cyprus , to today's three manufacturing plants in Cyprus and Jordan (producing paint brushes, paint rollers, decorating tools and plastic products and components), customers worldwide have come to trust Peta to satisfy their requirements for both the professional and DIY sector.

The fact that Peta products are vertically produced (as most components are produced in-house) using the latest technology, means that these high quality paint brushes and rollers are supplied at competitive prices.

Peta products are actively exported to over 10 countries , including the UAE , Saudi Arabia and Oman (in the GCC region), Thailand (in Asia) as well as Europe.

For it's export achievements the organization has been honored with several Export Awards by both Cyprus and Jordanian authorities.

Paint Brushes

A significant aspect of Peta paintbrush making, is the use of the right materials and experienced production techniques. High quality bristle is used (with specifications and guidelines), and many of the quality handles are produced in house.

The latest production techniques are used to ensure superior finished products, whilst for select ranges (like PETA 500), Peta has trained personnel for hand making exceptional brushes.

Peta Zebra

Superior quality brush, with a special mixture of pure and Orel-T bristle and a two component handle (with anti-slip properties). Set in an inox ferrule with epoxy resin.

Item	Width	Thickness	Length Out	Boxed
Z001	1"	7/16"	2 1/4"	12
Z002	2"	9/16"	2 1/2"	12
Z003	3"	11/16"	2 3/4"	12

Peta Optima

Superior quality brush with a special mixture of pure and Orel-T bristle set in a brass plated ferrule with epoxy resin.

Item	Width (mm)	Thickness (mm)	Length Out (mm)	Boxed
O001	25	13	50	12
O002	35	13	55	12
O003	50	13	55	12
O004	60	16	61	12
O005	75	16	67	12
O006	100	16	74	12

Superior quality brush with black natural bristle set into a stainless steel ferrule with epoxy resin.

Item	Width	Thickness	Length Out	Boxed
PR401	1"	5/8"	2 1/2"	12
PR402	1 1/2"	5/8"	2 1/2"	12
PR403	2"	3/4"	2 3/4"	12
PR404	2 1/2"	13/16"	2 3/4"	12
PR405	3"	7/8"	3"	6
PR406	4"	7/8"	3 1/2"	6

Thick quality brush with black natural bristle set in epoxy resin with nickel plated ferrule.

Item	Width	Thickness	Length Out	Boxed
402	1"	5/8"	2 1/4"	12
403	1 1/2"	5/8"	2 1/4"	12
404	2"	3/4"	2 1/2"	12
405	2 1/2"	13/16"	2 1/2"	12
406	3"	7/8"	2 3/4"	12
407	4"	7/8"	3"	6

Thick quality brush with white natural bristle set in epoxy compound with nickel plated ferrule.

Item	Width	Thickness	Length Out	Boxed
601W	1"	5/8"	2 1/4"	12
602W	1 1/2"	5/8"	2 1/4"	12
603W	2"	3/4"	2 1/2"	12
604W	2 1/2"	13/16"	2 1/2"	12
605W	3"	7/8"	2 3/4"	12
606W	4"	7/8"	3"	6

A fine quality adjustable corner brush with white natural bristle set in epoxy compound with nickel plated ferrule.

Item	Width	Thickness	Length Out	Boxed
851	2 1/2"	13/16"	2 1/2"	12
852	3"	7/8"	2 3/4"	6

Peta 300

A fine quality brush with black natural bistle set in epoxy compound with tin plated ferrule.

Item	Width	Thickness	Length Out	Boxed
301	1/2"	3/8"	1 3/4"	24
302	3/4"	7/16"	1 3/4"	12

Paint Rollers

Peta paints rollers are designed and produced with the end user in mind (whether professional or DIY), and cover all major areas of paint and varnish applications. Our company uses environmentally friendly production machines like the patented thermofusion. For sufficient container quantities, we can also provide a vast selection of rollers with required fabric types and colours, in addition to our current ranges.

Medium pile polyester roller on a polypropylene core for emulsion paints on smooth or semi-smooth surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9"

SPB BLUE

Long pile polyester roller on a polypropylene core for emulsion paints on rough and texture surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9"

LONG PILE SFW

Special Medium Pile roller for Epoxies and Waterproofing

Tube Diameter	Length
1 1/2"	7", 9"

SPU

Microfibre

Excellent quality paint roller. Designed for wood deck applications. Also suitable for emulsion paints.

Tube Diameter	Length
1 1/2"	4", 7"

ECO

High quality polyamide paint roller suitable for eco paints as well as plasterboard applications.

Tube Diameter	Length
1 1/2" or 1 3/4"	9"

MFB Mohair

A high quality mohair roller for gloss paints. Also for primers and undercoats or smooth and semi smooth surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9"

Simulated Mohair

Short pile polyester roller for gloss paints. Also for primers and undercoats on smooth and semi smooth surfaces. Available in White or Cream.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9"

String type polyester roller on a polypropylene core for emulsion paints. Also suitable for masonry paints on rough and texture surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9", 9 1/2"

Exceptional Quality String type acrylic roller on a polypropylene core for emulsion paints. Also suitable for masonry paints on rough and texture surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9"

Exceptional Quality String type polyamide roller on a polypropylene core for emulsion paints. Also suitable for masonry paints on rough and texture surfaces.

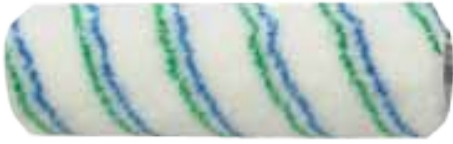

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9", 9 1/2"

Exceptional Quality String type acrylic roller on a polypropylene core for emulsion paints. Also suitable for masonry paints on rough and texture surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9", 9 1/2"

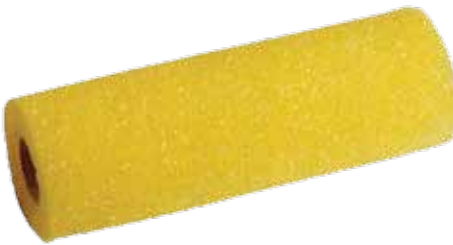

Lint Free Roller

Respiration Fibre emulsion paint roller, suitable for smooth and semi smooth surfaces.

Tube Diameter	Length
1 1/2" or 1 3/4"	4", 7", 9"

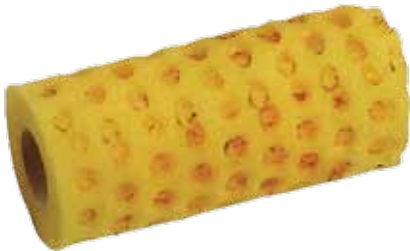

FRF / FRM / FRG

High quality foam rollers on PVC tube. Available in fine (FRF), medium (FRM) and gross (FRG) texture.

Tube Diameter	Length
1 1/2"	4", 7", 9"

RMB

High quality foam rollers on PVC tube with burnt holes. Available in medium texture (RMB).

Tube Diameter	Length
1 1/2"	7", 9"

Radiator Rollers

Available in :

Mohair (for oil paints and varnishes)

Polyamide String Type White (for emulsion paints)

SPU Polyester / Acrylic (for epoxy applications)

Tube Diameter	Length
15mm	10 cm

Paint Roller Handles

Dust Covers

Prepacked dust covers.

Standart Quality available in:

20m² (4x5)

and

50m² (4x12.5)

Heavy Duty Quality available in:

20m² (4x5)

and

50m² (4x12.5)

Display Stands

These high quality displays can assist in a more effective promotion of Peta products. Available to all major stockists upon request.

Product R&D and Quality Control

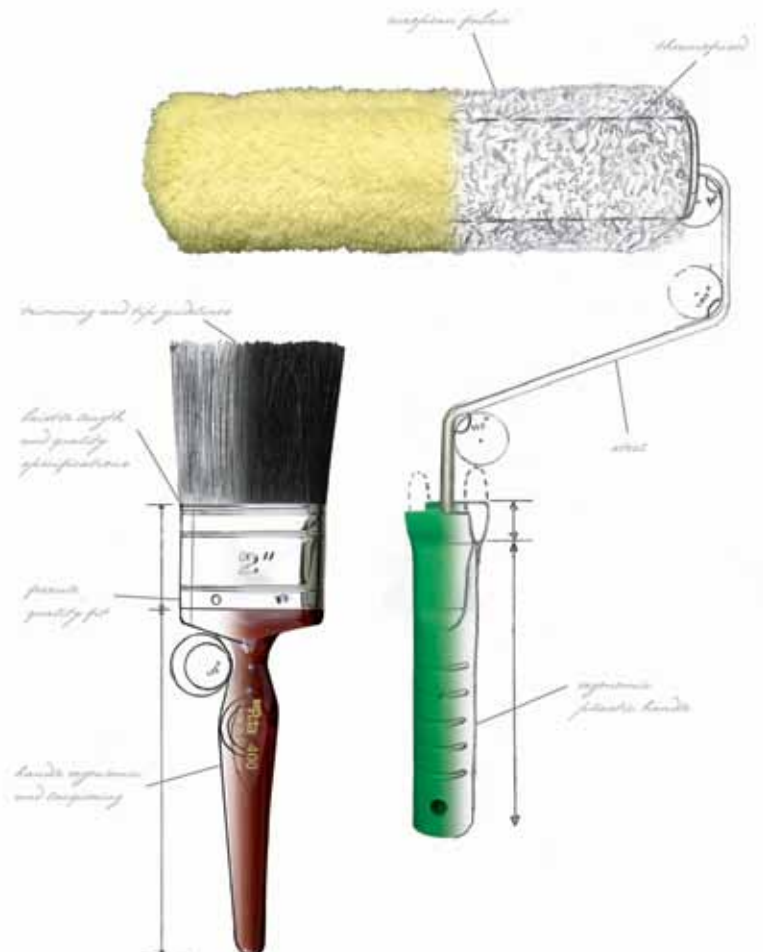

By using tried and tested raw materials and relevant production processes, Peta ensures that paint brushes, rollers or accessories fulfill their ultimate goal: providing a quality tool for quality application.

This is why so many products in the ranges are used successfully by professional and DIY users in over 10 countries worldwide.

Products taken from the production batch are tested regularly out house (with recorder results) so any arising problems can be detected early.

Quality is of course a result of inhouse culture in the organization, starting from the production floor personnel up to top Management.

Trust in a product name can only be built on providing consistent quality and this principle has been the foundation of the business since its beginning over 40 years ago.
